

Smiths Group

Meetings with investors in the US, April 2005

Presentation by: **Alan Thomson**, Financial Director
Russell Plumley, Director, Investor Relations

Operating performance: for H1 2005

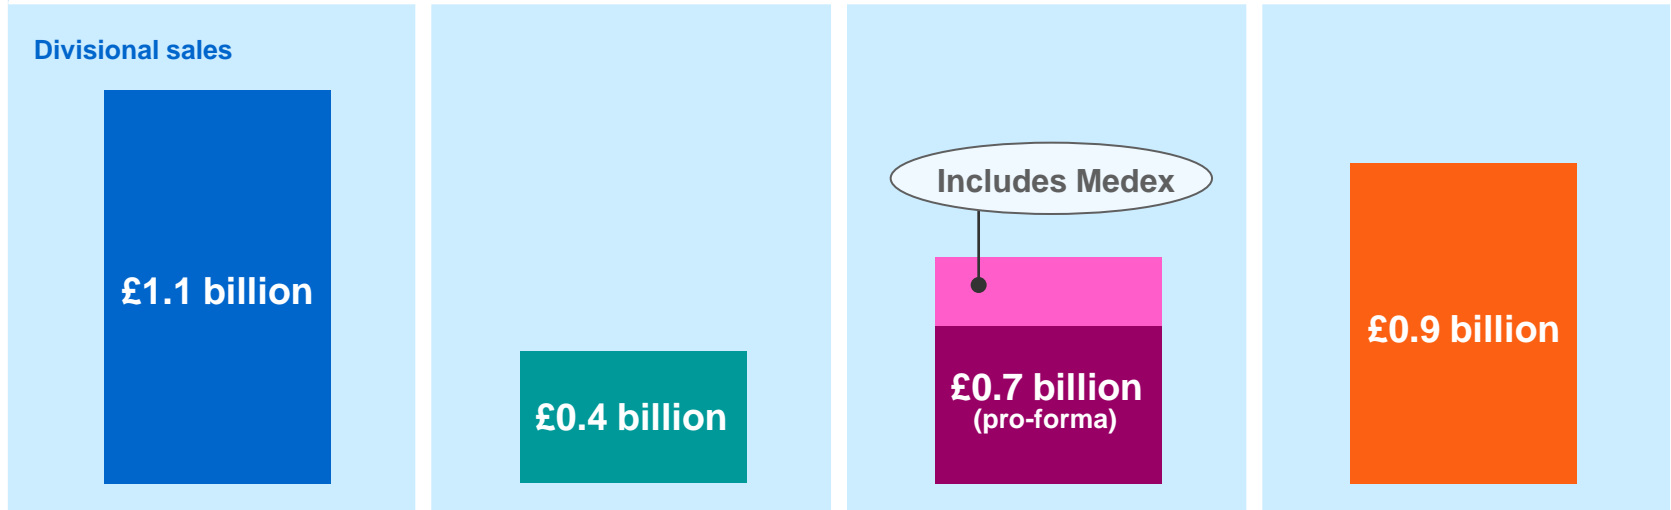

smiths

£m	H1 2005	H1 2004
Sales	1,344	1,264
Headline operating profit	153	141
<i>Margin</i>	11%	11%
Net interest	(6)	(9)
Pensions financing	8	1
Headline profit before tax	155	133
EPS	20.4p	17.5p
Dividend	9.25p	8.75p

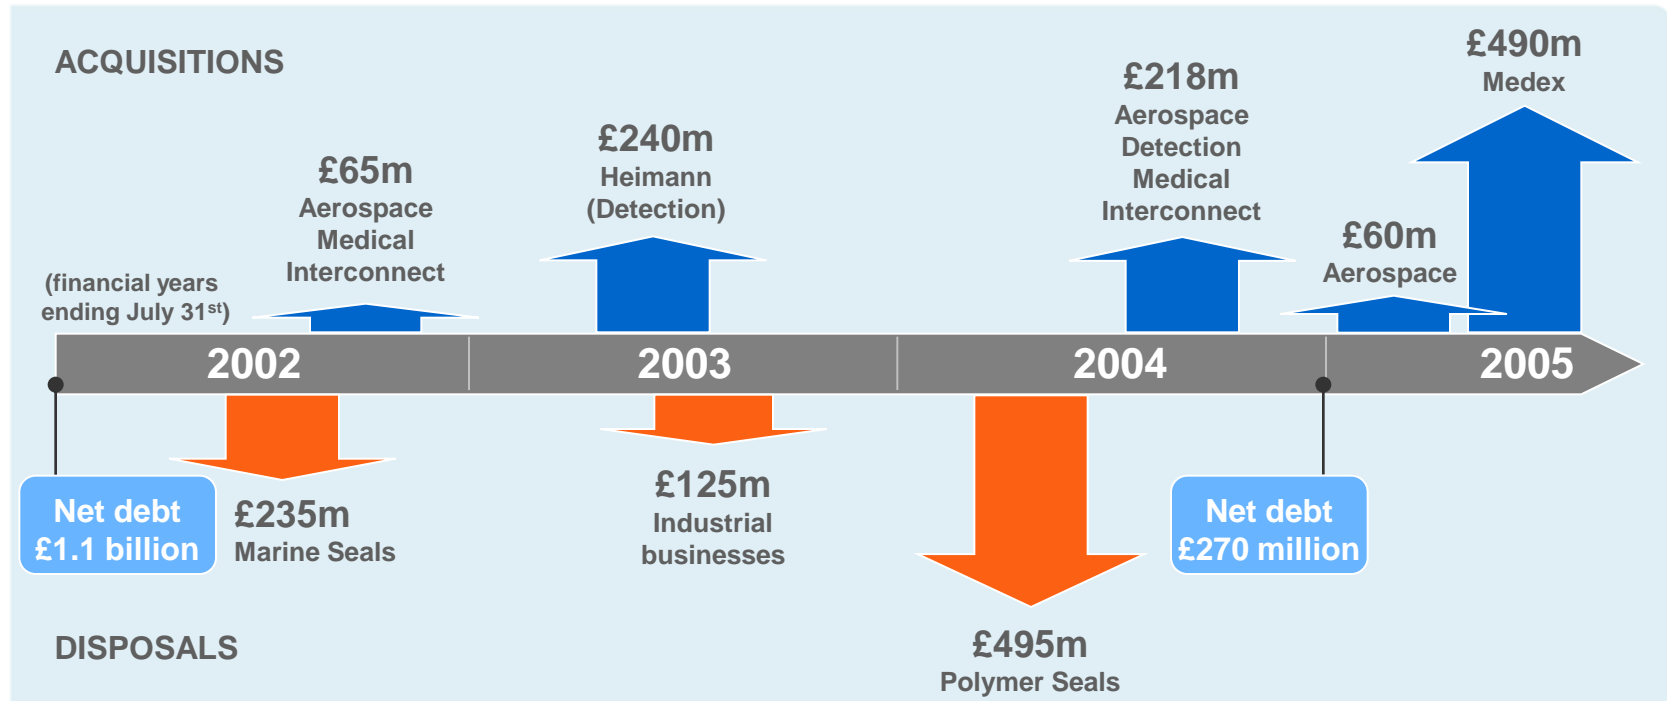

Smiths Group: Four strongly-performing divisions

Aerospace	Detection	Medical	Specialty Eng
			
Smiths Aerospace Systems and equipment for military and commercial aircraft	Smiths Detection Equipment for protection against threats to security	Smiths Medical Devices for critical care and medication delivery	Specialty Engineering Application-specific electronic and engineered products

Smiths current annual sales (incl. Medex) approx £3 billion

Significant progress on reshaping Smiths Group

Management action:

- Disposal of non-core business
- Focusing on activities with best growth prospects
- Adding relevant acquisitions to existing operations

Acquisition currency:

- 1 Strong free cash-flow
- 2 Disposal proceeds

The profit profile of Smiths has changed: now focused on sectors with strong growth

Aerospace

Cyclical markets for commercial, strong momentum business in defence

Upswing in commercial is driving Smiths' profit recovery

Detection

Exciting market still evolving, new technology is the driver

Smiths expects to achieve double digit growth

divisional contribution to annual operating profit (incl. Medex)

Medical

Relentless increase in healthcare spending drives continuous growth in devices market

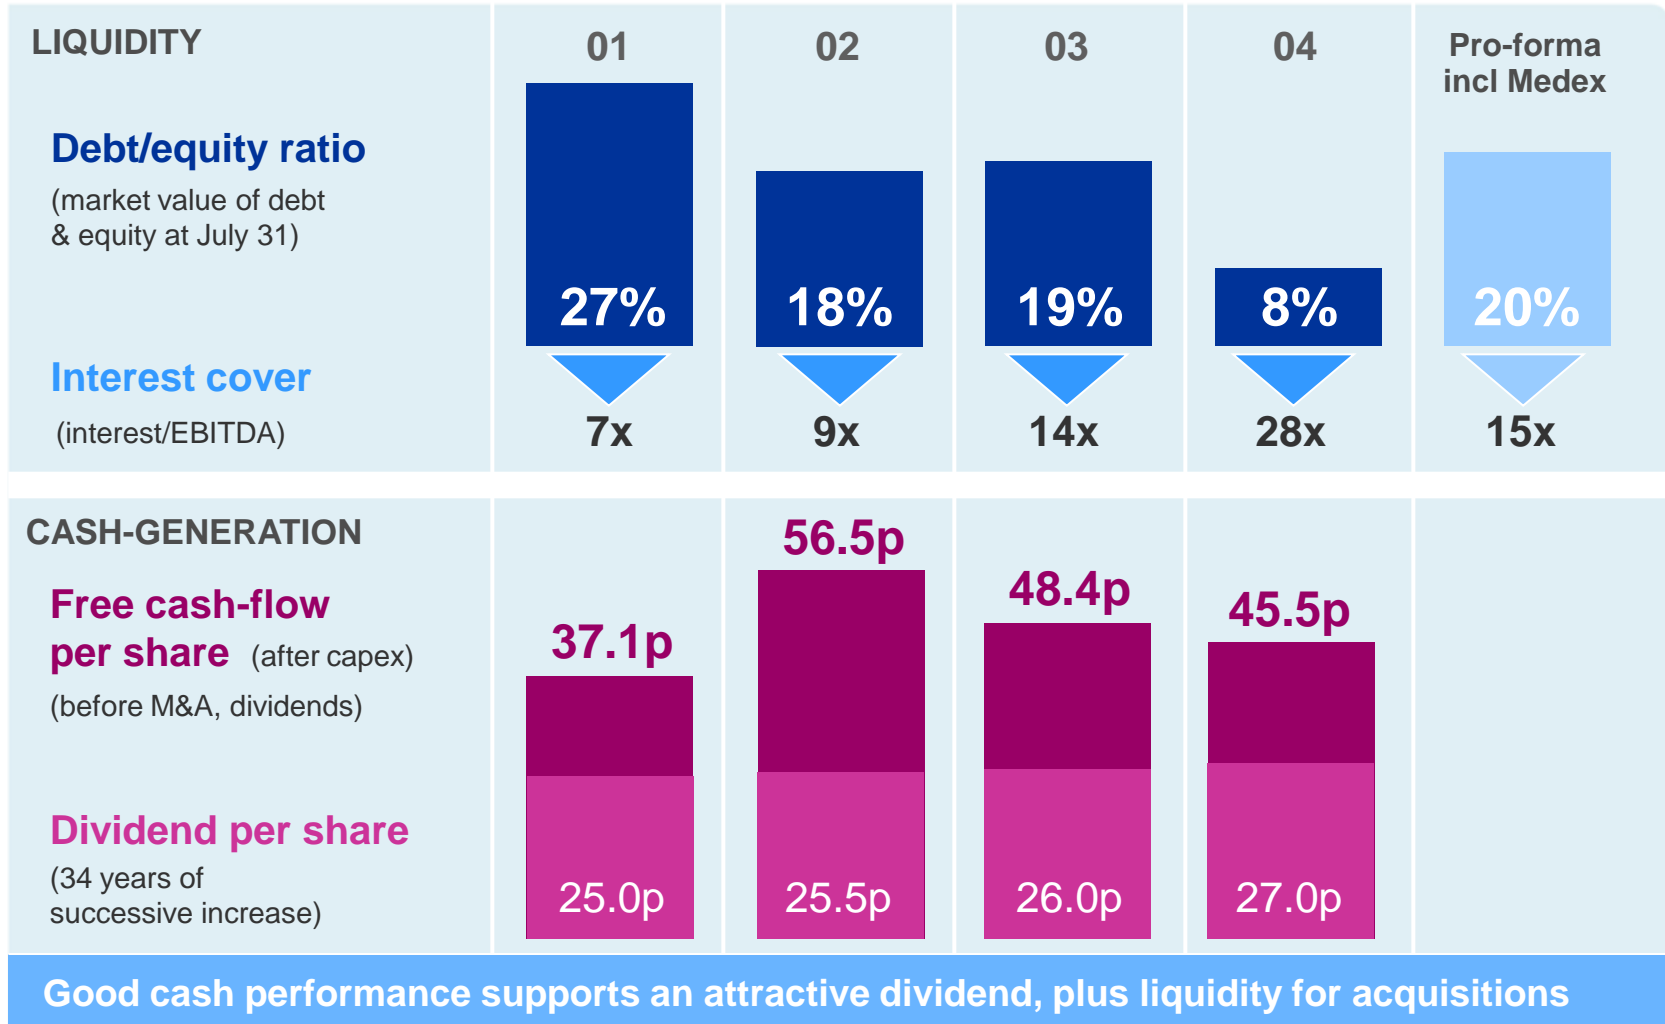

With Medex, Medical is now a larger part of Smiths

Specialty Engineering

In niche markets with growth rates of 5% and above

Interconnect is outperforming, with defence and telecoms components growing strongly

The financial resources are available for the continued development of Smiths

Continuing progress on acquisitions

Aerospace	DGT • engine components	cost	£57m						
	Integrated Aerospace • landing gear systems		£57m						
Detection	Cyrano • miniaturised detector		£8m						
	SensIR • hazmat detection		£41m						
	Farran • millimetre wave technology		£16m						
Medical	DHD • US respiratory care devices		£30m						
Spec. Eng.	TRAK • microwave components		£63m						
	Tianjin Timing • mechanical seals		£3m						
	US Seal • mechanical seals		£6m						
Cyrano	DGT	SensIR TRAK	DHD		Integrated Aerospace	Tianjin Timing		Farran	US Seal Medex
March 2004	FY2004			Aug 2004	FY2005				March 2005

Smiths Aerospace: overview

First tier supplier of integrated systems

- Electronic systems
- Mechanical systems
- Engine components

With technology leadership in vital areas of the aircraft

R&D/Sales

Company-funded
(expensed to profit)

8%

Customer-funded
(largely govt./military)

12%

Smiths Aerospace: performance in H1 2005

£m	H1 2005	at constant currency
Sales	514	+17%
Operating profit	39	+24%
<i>Margin</i>	8%	

- Delivered first systems for: Airbus A380, F-35 JSF, C-130 AMP
- Development work on Boeing 787 Dreamliner on schedule
- Selected for complete landing gear on X-47B unmanned aircraft
- Teamed with Lockheed on US 101 Presidential helo fleet
- Capacity in China will be doubled by 2006
- Engine component plant in Poland being expanded

Boeing 787

Eurofighter

US 101

Smiths Aerospace: sales trends

Smiths Detection: Fundamental strengths

- Market leadership in both Trace and X-ray detection
- Broadest range of applications
- Not dependent on airport security
- Significant investment in product innovation
- Worldwide sales base, incl. military customers

Smiths Detection: built from strong organic growth and key acquisitions since 1997

Smiths Detection: performance in H1 2005

£m	H1 2005	at constant currency
Sales	153	+10%
Operating profit	21	+22%
<i>Margin</i>	13%	

- Timing of deliveries variable, government order patterns skewed to second half
- Significant military awards, including:
 - US ACADA programme
 - UK LCAD programme
 - Royal Netherlands Army
- R&D now at 8%, yielding good stream of new products
- Acquired technologies (eg: millimetre wave) will broaden Smiths' capabilities
- Orders in this period from: 

Smiths Detection: a broad spread of applications

smiths

Military

Non-security applications

Critical infrastructure

Current sales

Airports

Ports & borders

First responders

Smiths Medical: Fundamental strengths

- Strong market niches in specialised devices
- Smiths is well-placed in the hospital **and** in the ex-hospital recovery sector
- Market grows steadily at 5-6% p.a
- Recent product intros are adding to current growth
- Nearly three-quarters of profits are generated in dynamic US market

A leader in medical devices and equipment, in a dynamic world market

Smiths Medical: performance in H1 2005

£m	H1 2005	at constant currency
Sales	237	+6%
Operating profit	39	+7%
<i>Margin</i>	17%	

- Two-thirds of profit generated in North America, significant translation impact
- Strong growth in safety devices, US market not yet fully compliant
- Cozmonitor (in partnership with Abbott) well-received in US
- Cozmo launched in 8 countries
- Sales in Japan held back by withdrawal from third-party products

Epidural kit

Cozmonitor

Digit

The acquisition of Medex:

Gives Smiths a significant presence in the critical care sector

smiths

The combined range meets 95% of the requirement for safety devices...

...and 90% of the requirement for anaesthesia disposables

The customer callpoints for Smiths and Medex are the same

With a full range to offer, the combined sales team has the opportunity to increase market share

Medex Acuvance catheters

Smiths now has a significant presence in the safety device sector

The acquisition of Medex:

A comprehensive integration plan is in place

- Scheduled to complete on 21 March
- Medex senior team secured
- Overall organisation established

- Medex and Smiths Anaesthesia & Safety Devices combined
- New **Critical Care** division established
- **International** organisation streamlined

- Unified US Critical Care sales-force in first month
- Critical Care marketing team in place
- “Capturing top line synergies” programme launched

- Manufacturing integration
- Procurement rationalisation
- R&D co-ordination
- Shared services organisation

Medex ProtectIV catheters

Specialty Engineering: A significant contributor to Smiths' profits. **smiths**

Businesses with good margins and respectable growth rates

FlexTek

Hoses, ducting for domestic appliances, aircon

Marine

Marine radar & navigation charts

Annual sales circa
£0.9 billion
margin 14%

Interconnect

Connection & protection of electronic circuits, currently achieving double digit growth from aero and telecom upswing

John Crane

World's No1 supplier of rotating seals, used in oil/gas/chemical plant and pipelines

Specialty Engineering

delivers 100% of its profits in cash

Specialty Engineering: performance in H1 2005

£m	H1 2005	at constant currency
Sales	440	+9%
Operating profit	54	+14%
<i>Margin</i>	12%	

- Higher sales and profits in all four activities
- John Crane - grew strongly in America
 - but was held back in Middle East
 - Russian JV now delivering to Gazprom
 - higher raw material costs passed on
- Interconnect - microwave components business performing well
 - strong demand in military, aerospace, telecoms
- Flex-Tek - Malaysian plant now supplying Dyson
- Marine - strong naval business

TRAK

John Crane

Microwave cable

Smiths Group: Looking ahead

Pick-up in commercial aerospace will continue

R&D, new products generating incremental sales

Recent acquisitions are contributing strongly

The benefit of Medex starts in H2

Further productivity gains from current restructuring

Smiths' "second half" pattern will be repeated

“Capitalising on opportunities to generate sustained growth”
